

MAKING GAINS NEAR VERDUN

Germans Vigorously Assault
the French Lines.

FIGHTING IN TRONES WOOD

British Retake Most of That Position
After Severe Battle, While French
Forces Halt to Consolidate Their
Important Gains.

London, July 12.—The British re-
captured nearly the whole of the
Trones wood, the war office announ-
ced. All but the northernmost end of
the wood is again in British hands.

This was another good day for the
entente allies, who are making a
steady advance on all fronts.

The news is of sustained and heavy
fighting on almost all the fronts, the
allies making consistent progress,
with only occasional setbacks.

The British have finally captured
the fiercely contested town of Con-
talmaison after desperate day and
night fighting and now are holding
the town against all the German counter
attacks.

The British also are in possession of
the greater part of Mametz wood.

The French along the Somme car-
ried out some minor detached opera-
tions, which enabled them to strength-
en their position at La Maisonette.
Apparently the French are waiting for
the British to straighten out their
line before making the attempt to
drive the Germans out of Peronne.

On the Russian front the Stokhod
sector is the central point of the Rus-
sian advance. The Germans have
brought up strong reinforcements and
artillery to oppose the Russians, who
now are within twenty miles of Kovel.

Rome asserts that because of the
Italian offensive in the Trentino sev-
eral divisions of Austrian troops, al-
ready on their way to the Russian
front, have been recalled.

ON AN EIGHT-MILE FRONT

British Capture All German First Line
Positions.

London, July 12.—The capture of
the whole of the Germans' first sys-
tem of defenses on a front of 14,000
yards, nearly eight miles, after ten
days and nights of continuous fight-
ing, is announced in the official report
from British headquarters in France.
The number of prisoners taken ex-
ceeds 7,500. The text reads:

"After ten days and nights of con-
tinuous fighting our troops have com-
pleted the methodical capture of the
whole of the enemy's first system of
defense on a front of 14,000 yards.
The system of defense consisted of
numerous and continuous lines of fire
trenches, support trenches and reserve
trenches, extending for various depths
from 2,000 to 4,000 yards.
"It included five strongly fortified
villages, numerous heavily wired and
entrenched woods and a large num-
ber of immensely strong redoubts.
The capture of each of these trenches
represented an operation of some im-
portance."

BRITISH AND FRENCH MAKE FURTHER GAINS

Paris, July 12.—While calm prevail-
ed on both sides of the Somme, heavy
fighting occurred on the right bank of
the Meuse, in the Verdun sector. Ger-
man forces succeeded in gaining a
footing in the Damloup battery, which
has been bitterly fought over for days
past, and in some sections of the
French line in the Fumin wood.

This news is contained in the official
statement issued by the French war
office.

"On the right bank of the Meuse,"
the war office report says, "the Ger-
mans renewed their attacks on the
front of the Fleury station, the Vaux
wood, Chapitre and Chenois.

"After several fruitless attempts,
which cost him heavy losses, the en-
emy succeeded in gaining a footing in
the Damloup battery and in some el-
ements of our line in the Fumin wood.
The bombardment is being maintained
intensely in the whole region.

RUSSIANS MAKE BIG HAUL

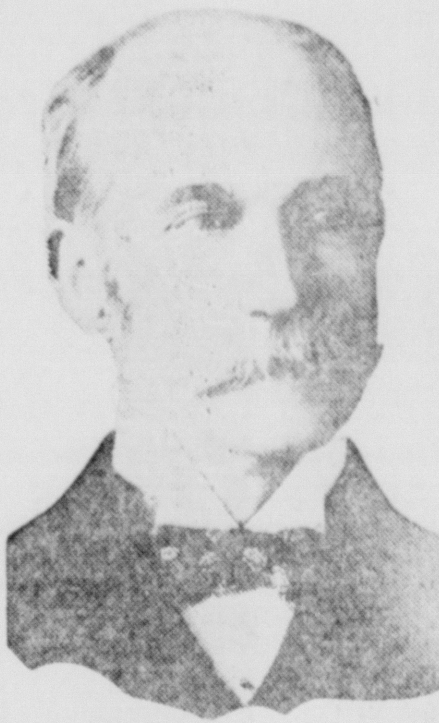

Capture About 70,000 Austrians in Re-
cent Operations.

Petrograd, July 12.—The approxi-
mate total of prisoners taken by the
Russians during General Brusiloff's
operations to July 19 amounted to 5-
620 officers and 266,000 men, the war
department announced.

Guns to the number of 312 and 866
machine guns have been captured.

LORD LANSDOWNE.

Discusses Plans for
Home Rule in Ireland.

LANSDOWNE GIVES HIS VIEWS ON IRELAND

London, July 12.—In the course of a
discussion in the house of lords on
the report of Baron Hardinge, head of
the commission which investigated the
Irish rebellion, and in which several
members urged that Augustine Bir-
rell, former secretary for Ireland,
should have been censured as the one
responsible for the Sinn Fein outbreak,
Lord Lansdowne outlined a system for
the provisional government of Ireland
when martial law is abolished there
and until a new government can be
established.

An Irish secretary, with a capable
military adviser would be appointed.
There also would be a new chief of
the Royal Irish constabulary, who
would be a well known soldier, accord-
ing to the plan.

Nobody would be allowed to carry
arms without a permit and there
would be no grants of amnesty. A
garrison would be maintained in Ire-
land strong enough to preserve order
and special safeguards would be cre-
ated for the loyalists in the South and
West.

Lord Lansdowne said he understood
the Sinn Fein movement was waning
and that he had expected the passage
of a bill embodying Irish settlement
would occupy considerable time.

Lord Lansdowne thought that with
40,000 troops in Ireland under com-
mand of General Maxwell, in whom
the government had unabated confi-
dence there was no fear of the situa-
tion getting out of hand.

MINE EXPERIMENT STATION

Federal Government Will Locate One
at Minneapolis.

Minneapolis, July 12.—Dean W. R.
Appley of the University of Minne-
sota received advice from President
George E. Vincent, who is in Washing-
ton, confirming the report that Min-
neapolis will be the location of a
mines experiment station under the
new federal law. Ten such stations
are to be established.

Dr. Vincent informed Dean Appley
that Secretary of the Interior Frank-
lin K. Lane had decided that the first
three stations to be established would
be located in the farther west, but
that the Minnesota station would be
included in the three to be provided
for by congress next year.

The Minneapolis Civic and Com-
merce association petitioned the de-
partment of the interior to place the
Minnesota station in Minneapolis as
an adjunct of the state university.

WILL MAKE REGULAR TRIPS

Germany Building More Freight Car-
rying Submarines.

Berlin, July 12.—The opening of di-
rect shipping connections between
Germany and the United States by the
submarine merchantman Deutschland
has occasioned great jubilation and en-
thusiasm among Germans, but no one
is more elated than Alfred Lohmann,
former president of the Bremen
chamber of commerce and the origina-
tor of an underwater service.

Herr Lohmann said that the Deutsch-
land was only the first of a fleet of
submarine freighters and that a regu-
lar transatlantic service with frequent
sailings would soon be in operation.

A second boat, named the Bremen,
he added is about to start for America
with a cargo and a number of sister
ships are rapidly approaching com-
pletion. It is understood that the
number of boats will soon be adequate
for the establishment of a weekly
service.

"Remember," Herr Lohmann said,
"that the Deutschland entirely was
unarmed; she carried no torpedo
tubes, no cannon and no weapons of
offense or defense of any kind."

Deputy Treasurer
Under Investigation

(By United Press)
St. Paul, June 12.—Edward Erick-
son, deputy state treasurer, resigned
following Treasurer Gooding's inves-
tigations. Mr. Gooding says in 1911
a check for \$59.45 for fees was sent
the treasurer of Norman county but
the treasurer returned it. This
check was cashed in St. Paul and the
money was not given to the state and
later the treasurer was found en-
titled to the fees who charged the
amount to his remittance, and the
money was again charged to the
state. Treasurer Gooding has failed
to connect Erickson directly with the
discrepancy.

REPORTS VESSEL IS TRADE CRAFT

Naval Officer Inspects German
Submarine.

DETERMINES STATUS OF SHIP

Acting Secretary of State Polk May
Refer Findings to Neutrality Board,
but There Seems Little Chance That
Result Would Be Changed.

Washington, July 12.—Official in-
vestigation, backed by the opinion of
American naval experts, shows that
the German submarine Deutschland is
a merchant ship and not capable of
being transformed into a warship on
the high seas.

The report of the investigation made
by Captain C. F. Hughes of the Unit-
ed States navy reached the state de-
partment through the treasury depart-
ment.

Acting Secretary of State Polk in-
dicated, after receiving it, that the
status of the ship is now satisfactorily
determined, so far as this government
is concerned. He may as a matter of
routine refer the report to the neu-
trality board, but it is extremely un-
likely that this would change the sit-
uation.

The protests of both Great Britain
and France against the presence of
the Deutschland in an American port
on the ground that she is potentially
a warship, will not affect this govern-
ment's position.

Recognition of the Deutschland as a
merchantmen means:

The officers and crew of the ship
can go and come as they please.

The ship can carry on unhindered
any legitimate trade between the Unit-
ed States and Germany.

The Deutschland can remain in port
until her captain desires to leave.

In addition, the Deutschland will en-
joy the stipulated privileges, under in-
ternational law, of a peaceful com-
merce carrier, according to the state
department.

The result of the investigation, at
the instigation of Mr. Polk, was com-
municated to the treasury department.

EXPLOIT OF GERMANS PRAISED BY ENGLAND

London, July 12.—"We are quite
ready to join in the laugh against our-
selves, and to applaud the skill and
daring of the captain, who appears to
us as a sportsman and has earned his
laurels cleanly," says the Manchester
Guardian, referring to the German
submarine Deutschland.

The Guardian says plans for sub-
marines of 3,000 or 4,000 tons existed
in Germany and England before the
war, but that such vessels were not
built because of the time required to
submerge them and the impossibility
of submerging in shallow water.

It points out that the Australian sub-
marine AE-2 went from Australia to
the Dardanelles and says that if the
captain and crew of the Deutschland
are members of the imperial German
navy the submarine may be dealt with
as a naval auxiliary.

Otherwise, it is a blockade runner,
which could be ordered to stop, and it
it attempted to submerge, it would be
justifiable to sink it."

Washington, July 12.—Official investigation, backed by the opinion of American naval experts, shows that the German submarine Deutschland is a merchant ship and not capable of being transformed into a warship on the high seas.

The report of the investigation made by Captain C. F. Hughes of the United States navy reached the state department through the treasury department.

Acting Secretary of State Polk indicated, after receiving it, that the status of the ship is now satisfactorily determined, so far as this government is concerned. He may as a matter of routine refer the report to the neutrality board, but it is extremely unlikely that this would change the situation.

The protests of both Great Britain and France against the presence of the Deutschland in an American port on the ground that she is potentially a warship, will not affect this government's position.

Recognition of the Deutschland as a merchantman means:

The officers and crew of the ship can go and come as they please.

The ship can carry on unhindered any legitimate trade between the United States and Germany.

The Deutschland can remain in port until her captain desires to leave.

In addition, the Deutschland will enjoy the stipulated privileges, under international law, of a peaceful commerce carrier, according to the state department.

The result of the investigation, at the instigation of Mr. Polk, was communicated to the treasury department.

EXPLOIT OF GERMANS PRAISED BY ENGLAND

London, July 12.—"We are quite ready to join in the laugh against ourselves and to applaud the skill and daring of the captain, who appears to us as a sportsman and has earned his laurels cleanly," says the Manchester Guardian, referring to the German submarine Deutschland.

The Guardian says plans for submarines of 3,000 or 4,000 tons existed in Germany and England before the war, but that such vessels were not built because of the time required to submerge them and the impossibility of submerging in shallow water.

It points out that the Australian submarine AE-2 went from Australia to the Dardanelles and says that if the captain and crew of the Deutschland are members of the imperial German navy the submarine may be dealt with as a naval auxiliary.

Otherwise, it is a blockade runner, which could be ordered to stop, and if it attempted to submerge, it would be justifiable to sink it."

TWO MORE PERISH IN RED RIVER FLOOD

Fargo, N. D., July 12.—Two more lives have been added to the toll of the flood waters of the Red river, which continued a torrent in some sections.

While swimming in the Fargo college stadium with several companions John George, eighteen years old, got into deep water and was drowned. Berncy Leonard, Abercrombie, was seized by cramps and drowned, and his companion, Edwin Bontlieth, almost met a similar fate in attempting a rescue.

TEXAS SHERIFF IS KILLED

Slayer Also Shot Down and Two Deputies Wounded.

Hot Springs, Ark., July 12.—D. Phillips of Dallas, Tex., shot and killed Sheriff Charles C. Webb and wounded Deputy Sheriff's Dave Young and Henry Houpt.

Young may die. Other deputies killed Phillips.

The shooting occurred at a house where Phillips was rooming and where the officers had gone to arrest him. It is believed he was insane.

Telegraph Briefs
Peeved at Governor
St. Paul, Minn., July 12—Extra guards were today detailed to protect the life of Gov. J. A. A. Burnquist. His representatives among the Mesaba iron ore strikers, and Chicago police, advised the move. Several I. W. W. agitators, reported by Chicago police to be "desperate characters," left Chicago for St. Paul. Strikers are peeved at the governor's order to disarm them.
Grudge Against Fate
New York, July 12—Miss Bertha Dietz woke up in Knickerbocker hospital with a grudge against fate and her bloomer skirts. The things ballooned and would not let her sink when she jumped into the Hudson from a ferry boat. The net result of her attempted suicide is a bad cold for herself and for the cop who hauled her out. She wanted to die because she did not feel well.
Winter Wheat Discussed
St. Paul, Minn., July 12—Winter wheat for Minnesota was discussed today at the Interstate Cerealist conference at the University of Minnesota. H. K. Hayes, associate agronomist of the section of cereal breeding at the University farm, stated this problem:
Minnesota has been famous as a spring wheat state, yet there are certain disadvantages in spring wheat growing, and the experiments with winter wheat are for the purpose of overcoming these disadvantages, for example, to see whether grain growers by the use of winter wheat cannot escape damage by rust, cannot secure larger yields and a better distribution of labor on their farms.
Still another problem to be presented at the conference is that of the warfare against bunt of sinking smut. This problem will be discussed by M. A. Carleton, United States Department of Agriculture, and E. O. Stakman, University farm.
Deputies Stand Guard
Virginia, Minn., July 12—Eight hundred deputy sheriffs today stood guard about Mesaba range iron ore mines, when operators attempted to reopen the mines. They have been closed six weeks by a strike. Guards encircle a hall at Arora, Minn., today when 1,000 strikers held a mass meeting there.
Row Boats Smashed
Fargo, N. D., July 12—Several small row boats were smashed and some property damage done buildings along the shore, when several thousand tons of ice floated south down Red river today. Residents rubbed their eyes, then glanced toward the blazing sun, when the ice floe passed. Finally it was discovered a bursted ice storage house up the river had liberated the ice.
Dimpled Knead Maids
Atlantic City, N. J., July 12—Summer maids with dimpled knees must stop parading the beach in chorus girls aquatic costumes. This was the order handed down in the first reform edict of the season and today the mackintosh is saving the modesty of the conservatives. Coming from the department of public safety, the order is regarded as sinister.
Will Get Married
Newark, N. J., July 12—Private Louis Damser of the First N. J. N. G., now at Douglas, Ariz., and his sweetheart Miss Maud Sergeant of Newark, have found a way to get married, even though separated by several hundred miles and barred by a proxy ceremony by the New Jersey laws. A law friend has drawn a drawn a contract of marriage which will be signed by both parties and filed in the city recorder's office. Thus the two will be married by mail.
Breaks With Manager
Minneapolis, Minn., July 12—Fred Fulton today broke with his present manager, Mike Collins, former fight promoter at Hudson, Wis., and has again placed himself under the guidance of Frank E. Force, a former Minneapolis sport writer, who brought him out. Force discovered Fulton in 1912, signed a 5-year contract with him and paid all his early training expenses. Force and Fulton, after making a trip to California two years ago, mutually agreed to separate for a while upon their return.
Upon permission from Force, Fulton placed himself under Collins' management. Fred stated today that he was mishandled by Collins.
Fulton has opened an outdoor training camp near Rochester, and will secure Cleve Hawkins, a negro heavyweight, to box with him daily. Arrangements are being made to match Fulton with Frank Moran or Jim Coffey in Minneapolis Sept. 2.

BRAINERD'S ODDEST STORY OF TODAY
A farmer called at the Brainerd Wholesale Grocery today and W. H. Cleary bought his beans at \$7 a bushel. The farmer had his statistics on bean culture figured down to the dot and so impressed Cleary that he told him he would shine as a salesman.
\$7 a bushel seems a lot to pay for beans," said the farmer, "but consider that there are 132,000 beans in a bushel or 2,200 to the pound. That makes 192 beans cost 1c. This number of beans, one cent worth, cooked up, makes a can of pork and beans selling for 10 cents."
Mr. Cleary was almost stunned by the mass of statistics and figuring the farmer had on the bean question and forgot to ask him the amount of dynamic energy contained in a bean.

Deputies Stand Guard
Virginia, Minn., July 12—Eight hundred deputy sheriffs today stood guard about Mesaba range iron ore mines, when operators attempted to reopen the mines. They have been closed six weeks by a strike. Guards encircle a hall at Arora, Minn., today when 1,000 strikers held a mass meeting there.
Row Boats Smashed
Fargo, N. D., July 12—Several small row boats were smashed and some property damage done buildings along the shore, when several thousand tons of ice floated south down Red river today. Residents rubbed their eyes, then glanced toward the blazing sun, when the ice floe passed. Finally it was discovered a bursted ice storage house up the river had liberated the ice.
Dimpled Knead Maids
Atlantic City, N. J., July 12—Summer maids with dimpled knees must stop parading the beach in chorus girls aquatic costumes. This was the order handed down in the first reform edict of the season and today the mackintosh is saving the modesty of the conservatives. Coming from the department of public safety, the order is regarded as sinister.
Will Get Married
Newark, N. J., July 12—Private Louis Damser of the First N. J. N. G., now at Douglas, Ariz., and his sweetheart Miss Maud Sergeant of Newark, have found a way to get married, even though separated by several hundred miles and barred by a proxy ceremony by the New Jersey laws. A law friend has drawn a drawn a contract of marriage which will be signed by both parties and filed in the city recorder's office. Thus the two will be married by mail.
Breaks With Manager
Minneapolis, Minn., July 12—Fred Fulton today broke with his present manager, Mike Collins, former fight promoter at Hudson, Wis., and has again placed himself under the guidance of Frank E. Force, a former Minneapolis sport writer, who brought him out. Force discovered Fulton in 1912, signed a 5-year contract with him and paid all his early training expenses. Force and Fulton, after making a trip to California two years ago, mutually agreed to separate for a while upon their return.
Upon permission from Force, Fulton placed himself under Collins' management. Fred stated today that he was mishandled by Collins.
Fulton has opened an outdoor training camp near Rochester, and will secure Cleve Hawkins, a negro heavyweight, to box with him daily. Arrangements are being made to match Fulton with Frank Moran or Jim Coffey in Minneapolis Sept. 2.

BRAINERD'S ODDEST STORY OF TODAY
A farmer called at the Brainerd Wholesale Grocery today and W. H. Cleary bought his beans at \$7 a bushel. The farmer had his statistics on bean culture figured down to the dot and so impressed Cleary that he told him he would shine as a salesman.
\$7 a bushel seems a lot to pay for beans," said the farmer, "but consider that there are 132,000 beans in a bushel or 2,200 to the pound. That makes 192 beans cost 1c. This number of beans, one cent worth, cooked up, makes a can of pork and beans selling for 10 cents."
Mr. Cleary was almost stunned by the mass of statistics and figuring the farmer had on the bean question and forgot to ask him the amount of dynamic energy contained in a bean.

St. Paul, Minn., July 12—Extra guards were today detailed to protect the life of Gov. J. A. A. Burnquist. His representatives among the Mesaba iron ore strikers, and Chicago police, advised the move. Winter Wheat Discussed

St. Paul, Minn., July 12—Winter wheat for Minnesota was discussed today at the Interstate-Cerealists conference at the University of Minnesota. H. K. Hayes, associate agronomist of the section of cereal breeding at the University farm, stated this problem:

Minnesota has been famous as a spring wheat state, yet there are certain disadvantages in spring-wheat growing, and the experiments with winter wheat are for the purpose of overcoming these disadvantages, for example, to see whether grain growers by the use of winter wheat cannot escape damage by rust, cannot secure larger yields and a better distribution of labor on their farms.

Still another problem to be presented at the conference is that of the warfare against bunt of sinking smut. This problem will be discussed by M. A. Carleton, United States Department of Agriculture, and E. O. Stakman, University farm.

DEMOCRATS ARE MORE CONFIDENT

Solution of Mexican Difficulty Strengthens Party.

MANY PROBLEMS STILL EXIST

Effect of Sending National Guard to Border Without Giving Them a Taste of War May Aid or Injure Chances. Marshall Popular in Senate Because He Gives Senators What They Want.

By ARTHUR W. DUNN.

Washington, July 13.—[Special.]—Democratic confidence seems to have advanced with the prospect of a settlement of Mexican difficulties without a war. The most interesting thing in a political way is that air of hope which is found among the Democratic politicians in Washington.

"Wilson has kept us out of war, and Hughes has not done anything," is one of the remarks that is being passed around, and seemingly it is quite satisfactory to the members of the party in power. "Hughes does not seem to arouse any enthusiasm," is another remark frequently heard, and it is said that the Democrats begin to think that this lack of enthusiasm will be a factor in the coming campaign.

National Guard Situation.

Just what will happen in regard to calling out the state troops and assembling them on the border without giving them a taste of war is an interesting question. Many of those men did not want to leave their work and enter the military service unless there was a real necessity. If they are kept on the border for several months without any real war service they are not going to be satisfied. At the same time their relatives and friends at home will be pleased to know that they are not being made targets for Mexican machine guns.

"Our militiamen do not care to emulate the soldiers of a certain king of France," remarked a senator. "They do not want to march up the hill and then march down again."

Giving the Senate What It Wants.

Vice President Marshall makes it the first rule of his official duty to give the senate what it wants. He will go as far as anybody in enforcing the rules, but if any senators question his ruling he promptly invites them to appeal from his decision. If he is reversed then he stands by the reversed decision even if he knows that it is wrong.

In one way Marshall is not quite satisfactory to the senate, because he does not enforce rules when the leaders give him the hint.

"Let them make any kind of rules they want, even if they do it as they go along," said the vice president, "and I will carry them out."

The "Guy That's Got to Listen."

One of the comparatively new senators was making a speech, and not a single senator was paying any attention to him. "That stenographer chap," remarked a man in the gallery rather pityingly, "he's the guy that's got to listen."

And he was right. The stenographer must listen.

They Knew Tom.

Soon after it was announced that Senator Taggart of Indiana was going to raise a regiment for service in Mexico a man from the state said:

"That regiment will be the best equipped, best fed and best treated regiment in the service and will do less fighting."

"I agree with all but the last," replied another Indian. "No one can say that Tom Taggart will not fight. At least he's a political fighter."

General Leonard Wood.

Quite a number of persons jumped to the conclusion that Major General Leonard Wood was the logical man to be placed in command of all the forces in Mexico and on the border. While this talk was going on there was in contemplation an order sending Wood before a retiring board and having him retired on account of physical disability. Quite a number of reasons were given for this, one that Wood is somewhat disabled, another that he was one of the men selected by Roosevelt as the proper man to run against Wilson and also that a year ago he was severely reprimanded for having permitted Roosevelt to make a certain kind of speech at Plattsburg.

Can't Find the Place.

Senator Thomas of Colorado, who would like to see economy in government expenditures, is unable to find the place to apply his theories. "I have been trying to discover some place where we can economize," he told the senate. "Every time an appropriation is questioned, no matter what it may be, we are told that it is not the place to economize, and by the action of the senate I find that to be the case. We cannot find any place to economize."

The Colorado senator has not made a new discovery. Every man wants to economize where it will not affect his state.

Lost Lobby Committee.

"The lobby committee will never make a report," remarked Senator Cummins of Iowa, who was a member of that celebrated organization. "That is one of the great fiascos of the senate." It has been nearly three years since that committee began to operate.

Not Serious.

"Husband, I found a lock of hair among your old papers. I never gave it to you."

"You needn't worry. I don't remember who did it."—Louisville Courier-Journal.

Mean Suggestion.

"Miss Gladys has such polish." "Do you mean in her manners or face enamel?"—Baltimore American.

How Common People Bridge Disaster

This second of Simms' seven stories on the marvelous development of the Russian common people under war conditions tells what happened when the government asked the people's organization for 7,500,000 suits of underwear for the soldiers, quick.

BY WILLIAM PHILIP SIMMS (United Press Staff Correspondent.) Petrograd, June 18 (By Mail).—

There are two mighty armies in Russia. One works in the front line trenches, shoots and charges bayonets. The other works back of the line and furnishes the front line what it needs. One is an army of soldiers. The other is an army of citizens. But both are under the orders of the general staff. The situation is unique in history. The main corps of this citizen army is known as the "All-Russian Zemstvo Union," and no other nation in the world boasts anything like it. If the troops need new fur coats the general staff tells the Zemstvo Union and the Zemstvo Union provides them. Or maybe the staff asks for socks and underwear; or boots, or bridges, or daggers, or bath-trains, or tannin, or chop-axes. Whatever in reason it asks for, it gets.

Soldiery and citizenry are working hand in hand. This statement is literal, not merely a figure of speech.

The Zemstvo—pronounced "Zem-stervo"—came into being in 1864, or three years after the serfs were freed and the land divided. It began very modestly and developed slowly, members being elected from three classes: Peasants, the landed gentry and the urbanites owning shops, factories or other property. Originally a Zemstvo composed of say 60 members, averaged about 20 peasants, 20 gentry and 20 town property owners, but in 1890 the gentry were given by law what by the very nature of things they had had from the start—a preponderant voice.

Russia is divided into 51 provinces, these into districts averaging about 10 districts to the province. At present 39 provinces and about 350 districts have Zemstvo organizations.

The district institution once a year sends delegates to a 10-day provincial Zemstvo at which the work of the past year is reviewed and the work for the coming year co-ordinated. Further, a provincial board of four men is named, these to devote their entire time to this work. The ordinary member of the Zemstvo receives no pay. The four board members are on salary as are the four members of a similar district board who do nothing else but supervise district work.

The Zemstvo has but slight legislative functions—levying local taxes, etc., and until the war its activities were confined to four spheres: Working the roads, supervising the schools aiding farmers with advice and looking after the hospitals; the primary needs of country districts.

Restricted in scope though the Zemstvo was it was nevertheless the apprenticeship of the people. It furnished the peasants with their first means of participating in public work. Side by side with their former masters, these farmers, newly out of serfdom, elected their Zemstvo representatives and labored for the community and for Russia.

Such was the Zemstvo at the beginning of the war.

On Aug. 12, 1914, less than two weeks from the commencement of hostilities a general meeting of delegates elected by the Provincial Zemstvos was held in Moscow. It was then and there decided to form the All-Russian Zemstvo Union for relief work among sick and wounded soldiers. And every Zemstvo joined in save one, this solitary abstainer preferring to work independently.

"Here we are: Use Us!" said the Zemstvo people to the government, and the government accepted. They were to be under the orders of the war department and available only for work in the interior. The limitation was put upon them; they did not specify the limitation. But the restriction did not hold. The army needed doctors, nurses, hospitals. The Zemstvo had been in the hospital business for 40 years and it went to the army's aid upon the very field of battle and in the front line trenches.

After this things moved rapidly. Hospitals in the interior were organized. So were first-aid, distributing centers, bases. "Front Brigades" were formed for handling the wounded, sanitary trains equipped. During October and November 1914 the Union sent the Serbian army 215,000 fur and other warm garments, paid for by the Russian government but bought by the Zemstvo and handled by them.

In October, 1914, General Shuyay-

Bring Smiles

New Post Toasties were perfected to overcome the defects of old-style corn flakes. And the hearty welcome they have received is ample proof that their superiority is recognized.

New Post Toasties have a self-developed, inner-flavor—the rich flavor of choice Indian corn. Try a handful dry—they're mighty good that way, and the test will prove that, unlike common flakes, they do not depend on cream and sugar for their palatability.

New Post Toasties do not "chaff" in the package, and they don't mush down in cream like common "corn flakes." The New Post Toasties are identified by tiny bubbles on each flake—produced by the quick, intense heat of the new process of manufacture, which also develops their wonderful new flavor.

Have your grocer send a package for tomorrow's breakfast.

GRADUATES EARN \$135,000,000 A YEAR

The total income of the 160,000 graduates of Draughon's Big Chain of Colleges at an estimated salary of only \$75.00 a month, exceeds ONE HUNDRED AND THIRTY-FIVE MILLION DOLLARS a year, while many of them are almost millionaires as a result of taking a Draughon Training during the past 26 years.

Go to the banks and you will find that DRAUGHON graduates are their cashiers; go to the factories or to the wholesale houses, and you find that DRAUGHON graduates are their accountants or managers; go to the railway offices, and you find that DRAUGHON graduates are their chief clerks or officials; go to Uncle Sam, and you find that DRAUGHON graduates are his most trusted servants; go wherever the most efficient office help is required, and there you find DRAUGHON graduates.

If you want to get into this money-making class, take the first step today by enrolling in the Brainerd Business College, Draughon's System and Text Books used exclusively and Draughon's Diploma awarded.

Note:—As we are members of the Brainerd Chamber of Commerce, we are in close touch with the business men of the city and have their assurance that they will give our graduates preference over those of any other business college, when in need of office help.

DEMOCRATS ARE MORE CONFIDENT

Solution of Mexican Difficulty Strengthens Party.

MANY PROBLEMS STILL EXIST

Effect of Sending National Guard to Border Without Giving Them a Taste of War May Aid or Injure Chances. Marshall Popular in Senate Because He Gives Senators What They Want.

By ARTHUR W. DUNN.

Washington, July 13.—[Special.]—Democratic confidence seems to have advanced with the prospect of a settlement of Mexican difficulties without a war. The most interesting thing in a political way is that air of hope which is found among the Democratic politicians in Washington.

"Wilson has kept us out of war, and Hughes has not done anything," is one of the remarks that is being passed around, and seemingly it is quite satisfactory to the members of the party in power. "Hughes does not seem to arouse any enthusiasm," is another remark frequently heard, and it is said that the Democrats begin to think that this lack of enthusiasm will be a factor in the coming campaign.

National Guard Situation.

Just what will happen in regard to calling out the state troops and assembling them on the border without giving them a taste of war is an interesting question. Many of those men did not want to leave their work and enter the military service unless there was a real necessity. If they are kept on the border for several months without any real war service they are not going to be satisfied. At the same time their relatives and friends at home will be pleased to know that they are not being made targets for Mexican machine guns.

"Our militiamen do not care to emulate the soldiers of a certain king of France," remarked a senator. "They do not want to march up the hill and then march down again."

Giving the Senate What It Wants.

Vice President Marshall makes it the first rule of his official duty to give the senate what it wants. He will go as far as anybody in enforcing the rules, but if any senators question his ruling he promptly invites them to appeal from his decision. If he is reversed then he stands by the reversed decision even if he knows that it is wrong.

In one way Marshall is not quite satisfactory to the senate, because he does not enforce rules when the leaders give him the hint.

"Let them make any kind of rules they want, even if they do it as they go along," said the vice president, "and I will carry them out."

The "Guy That's Got to Listen."

One of the comparatively new senators was making a speech, and not a single senator was paying any attention to him. "That stenographer chap," remarked a man in the gallery rather pityingly, "he's the guy that's got to listen."

And he was right. The stenographer must listen.

They Knew Tom.

Soon after it was announced that Senator Taggart of Indiana was going to raise a regiment for service in Mexico a man from the state said: "That regiment will be the best equipped, best fed and best treated regiment in the service and will do less fighting."

"I agree with all but the last," replied another Indian. "No one can say that Tom Taggart will not fight. At least he's a political fighter."

General Leonard Wood.

Quite a number of persons jumped to the conclusion that Major General Leonard Wood was the logical man to be placed in command of all the forces in Mexico and on the border. While this talk was going on there was in contemplation an order sending Wood before a retiring board and having him retired on account of physical disability. Quite a number of reasons were given for this, one that Wood is somewhat disabled, another that he was one of the men selected by Roosevelt as the proper man to run against Wilson and also that a year ago he was severely reprimanded for having permitted Roosevelt to make a certain kind of speech at Plattsburg.

Can't Find the Place.

Senator Thomas of Colorado, who would like to see economy in government expenditures, is unable to find the place to apply his theories.

"I have been trying to discover some place where we can economize," he told the senate. "Every time an appropriation is questioned, no matter what it may be, we are told that it is not the place to economize, and by the action of the senate I find that to be the case. We cannot find any place to economize."

The Colorado senator has not made a new discovery. Every man wants to economize where it will not affect his state.

Lost Lobby Committee.

"The lobby committee will never make a report," remarked Senator Cummins of Iowa, who was a member of that celebrated organization. "That is one of the great fiascos of the senate." It has been nearly three years since that committee began to operate.

BY WILLIAM PHILIP SIMMS
(United Press Staff Correspondent.)

Petrograd, June 18 (By Mail).—There are two mighty armies in Russia. One works in the front line trenches, shoots and charges bayonets. The other works back of the line and furnishes the front line what it needs. One is an army of soldiers. The other is an army of citizens. But both are under the orders of the general staff. The situation is unique in history. The main corps of this citizen army is known as the "All-Russian Zemstvo Union," and no other nation in the world boasts anything like it. If the troops need new fur coats the general staff tells the Zemstvo Union and the Zemstvo Union provides them. Or maybe the staff asks for socks and underwear; or boots, or bridges, or daggers, or bath-trains, or tannin, or chop-axes. Whatever in reason it asks for, it gets.

Soldiers and citizenry are working hand in hand. This statement is literal, not merely a figure of speech.

The Zemstvo—pronounced "Zem-stervo"—came into being in 1864, or three years after the serfs were freed and the land divided. It began very modestly and developed slowly, members being elected from three classes: Peasants, the landed gentry and the urbanites owning shops, factories or other property. Originally a Zemstvo composed of say 60 members, averaged about 20 peasants, 20 gentry and 20 town property owners, but in 1899 the gentry were given by law what by the very nature of things they had had from the start—a preponderant voice.

Russia is divided into 51 provinces, these into districts averaging about 10 districts to the province. At present 39 provinces and about 350 districts have Zemstvo organizations.

The district institution once a year sends delegates to a 10-day provincial Zemstvo at which the work of the past year is reviewed and the work for the coming year co-ordinated. Further, a provincial board of four men is named, these to devote their entire time to this work. The ordinary member of the Zemstvo receives no pay. The four board members are on salary as are the four members of a similar district board who do nothing else but supervise district work.

The Zemstvo has but slight legislative functions—levying local taxes, etc., and until the war its activities were confined to four spheres: Working the roads, supervising the schools, aiding farmers with advice and looking after the hospitals; the primary needs of country districts.

Restricted in scope though the Zemstvo was it was nevertheless the apprenticeship of the people. It furnished the peasants with their first means of participating in public work. Side by side with their former masters, these farmers, newly out of serfdom, elected their Zemstvo representatives and labored for the community and for Russia.

Such was the Zemstvo at the beginning of the war.

On Aug. 12, 1914, less than two weeks from the commencement of hostilities a general meeting of delegates elected by the Provincial Zemstvos was held in Moscow. It was then and there decided to form the All-Russian Zemstvo Union for relief work among sick and wounded soldiers. And every Zemstvo joined in save one, this solitary abstainer preferring to work independently.

"Here we are: Use Us!" said the Zemstvo people to the government, and the government accepted. They were to be under the orders of the war department and available only for work in the interior. The limitation was put upon them; they did not specify the limitation. But the restriction did not hold. The army needed doctors, nurses, hospitals. The Zemstvo had been in the hospital business for 40 years and it went to the army's aid upon the very field of battle and in the front line trenches.

After this things moved rapidly. Hospitals in the interior were organized. So were first-aid, distributing centers, bases. "Front Brigades" were formed for handling the wounded, sanitary trains equipped. During October and November 1914 the Union sent the Serbian army 215,000 fur and other warm garments, paid for by the Russian government but bought by the Zemstvo and handled by them.

In October, 1914, General Shuyay-

Bring Smiles

New Post Toasties were perfected to overcome the defects of old-style corn flakes. And the hearty welcome they have received is ample proof that their superiority is recognized.

New Post Toasties have a self-developed, inner-flavor—the rich flavor of choice Indian corn. Try a handful dry—they're mighty good that way, and the test will prove that, unlike common flakes, they do not depend on cream and sugar for their palatability.

New Post Toasties do not "chaff" in the package, and they don't mush down in cream like common "corn flakes." The New Post Toasties are identified by tiny bubbles on each flake—produced by the quick, intense heat of the new process of manufacture, which also develops their wonderful new flavor.

GOOD AND EVIL.

The very best gifts, those that we should covet above all others if we understood their real value, are not those which may or may not chance to come to us, but those which must inevitably follow us when we are good and true, faithful and wise. The worst calamities are not those which may come upon us unawares, but those which follow from our own conscious wrongdoing.

ALL READY FOR THE COMMUNITY PICNIC

Program of the Day Provides Amusement and Recreation for Everyone in Attendance

"LET'S ALL PULL TOGETHER"

Concert by Band, Ball Game, Parade, Lunch at Park, Address, Sports Program, Dancing, Etc.

The finishing touches are being added today to the second annual "Community Picnic" in Brainerd, to be held Thursday, July 13, and given under the auspices of the Federation of Farmers' clubs of Crow Wing county.

"Let's All Pull Together" is the slogan, and the attendance will amply corroborate this, for the largest gathering of town and country people in the history of Brainerd is expected for tomorrow's grand picnic. This is the program of the day:

9:00 A. M.—Concert in Railroad Park near the depot by the Brainerd City band.

10:00 A. M.—Free ball game at Koering field between Ft. Ripley and North Long Lake for a \$25 purse.

11:00 A. M.—Big parade starts at the Ransford hotel headed by the Brainerd City band, followed by G. A. R. veterans, the Morgan Drum corps, farmers and townspeople. The line of march will be to Broadway and to Lum park for the basket lunch.

12:00 Noon—Basket lunch at Lum park. Lunch can be purchased on the grounds if desired. Coffee, cream and sugar will be furnished to all free by the park management.

2:00 P. M.—Address by Ex-Gov. Samuel R. VanSant to the G. A. R. veterans and the farmers. He will speak at the pavilion.

3:00 P. M.—Athletic contests of all kinds, tug-of-war, 100 yard dash, running race, sack race, three-legged race, potato race, broad jump, high jump and many other novel contests for useful prizes.

4:00 P. M.—Free dancing at the pavilion for the farmers and their friends.

Lum park looks its prettiest. The grounds are in fine shape, buildings are natty and neat. Other amusements of the day include fireworks, boating, dancing and bathing.

All arrangements have been made for the entertainment of the second annual community picnicers tomorrow when one of the largest crowds ever assembled at Brainerd will be on hand to enjoy the festivities.

Word has been received from every Farmers' club in the county that large delegations are arranging to come while the towns in the county also have made plans to attend in large numbers.

Beginning in the morning, the Brainerd City band will give a concert in the newly built railroad park stand from 9 o'clock to 10 o'clock. At 10 o'clock the band will escort the ball players and fans to the Koering ball grounds where will be staged a game between Long Lake and Port Ripley. From the advance reports that are spreading, "Swede Erickson, manager of the Long Lake aggregation, will have on hand a bunch of ball tossers that will make the fast Port Ripley team set up and take notice. The \$25 offered as a prize to the winning team already has been copied by both teams and probably spent. This game will no doubt attract a big crowd of farmer boys and girls.

At 11 o'clock the band will be on hand at the Ransford hotel ready to head the parade which will be formed on Front street composed of the G. A. R. veterans and farmers. The Morgan Drum Corps will also be in line. Autos will be on hand to carry the farmers and their families to the park immediately after the parade while the G. A. R. veterans will be entertained by the Woman's Relief Corps at Elks hall at a dinner.

Word has been received from Deerwood that a special of three cars will arrive in Brainerd some time in the morning with the Deerwood band to live things up a bit. The delegation from the range is expected to be an enthusiastic one.

Ex-Gov. Samuel R. VanSant will arrive on the 1:50 train from Minneapolis and will be escorted by auto to Lum park where he will give an address at 2 o'clock to the farmers and veterans. In the evening he speaks to the veterans at their campfire at the Chamber of Commerce club rooms.

GRAND ARMY ENCAMPMENT

Park Region Encampment to be in Brainerd July 12, 13 and 14—The Program

EX-GOV. VAN SANT TO SPEAK

Sessions will be held at the Chamber of Commerce, Morgan Drum Corps to be here

Comrades of the Pap Thomas Post Grand Army of the Republic, have completed preparations for the entertainment of the Park Region Encampment of the Grand Army of the Republic which will be held in Brainerd on Wednesday, Thursday and Friday, July 12, 13 and 14, sessions being at the Chamber of Commerce and out door entertainment being also provided.

As Brainerd is the center of Minnesota, its location assures the encampment of a larger attendance than at any other city. Brainerd 15 years ago had the honor of entertaining the veterans and they came from all parts of the state.

WEDNESDAY, July 12

11:30 a. m.—Post meets visiting comrades at the trains.

2 p. m.—Comrades meet trains.

3 p. m.—Registration and assignment to quarters.

7 p. m.—Automobile ride about the city.

8:30—At headquarters.

Address of welcome by Mayor R. A. Balse, with reply by Comrade J. A. Wilson. Music will be furnished by the Morgan Post Drum Corps.

THURSDAY JULY 13

10 a. m.—G. A. R. parade led by the Morgan Post Drum Corps.

12:30 p. m.—G. A. R. basket lunch at Lum park.

2 p. m.—Address by Former Governor S. R. Van Sant of Minneapolis.

8:15 p. m.—General campaign at headquarters.

FRIDAY, JULY 14

9 o. m.—Business meeting at headquarters.

11:30 a. m.—Adjournment.

The 26th annual encampment of the G. A. R. Park Region district, opened this morning with the arrival of twenty-five veterans from points tributary to Brainerd. The noon train brought crowds from Atkin, Pequot and the range towns while quite a few drove in from different points in the county. The ladies of the Relief Corps are busily engaged arranging for the entertainment and comfort of the wives and daughters of veterans. It is estimated that one of the largest crowds ever attending an encampment in the district will be on hand by evening to enjoy the three day program arranged by the local committee.

This evening at 7 o'clock the convention and automobile committee of the Chamber of Commerce have arranged an auto ride for the delegates for one hour about the city after which the delegates and their friends will be escorted to the Best theatre where they will enjoy an army picture. Every owner of an automobile is requested to turn out at 7 o'clock and meet at the Ransford hotel ready to give the visitors a ride about the city. This invitation should be heeded. Let us show some of the hospitality Brainerd is famed for throughout the state.

Comrades J. M. Glunt, Albert Fox and J. A. Wilson together with T. E. Smith are in charge of arrangements while Mrs. Henry Thiel has appointed a committee on arrangements and reception to meet the incoming trains. The Morgan Drum Corps from Minneapolis is expected on the noon train and martial music will be spread to the four corners of the city. This organization is the best in the state today and seldom is an encampment held but that the corps is present to live the old comrades with the tunes they marched to in '61.

General headquarters are at the Chamber of Commerce rooms while the Woman's Relief Corps have headquarters in the Elks hall. Flags and bunting is being used by the merchants and business houses in a spirit of greeting while everyone is extending the hand of welcome.

GOOD WATER AT BREWERY

Water From Well No. 10 Shows Very Little Hardness and Not a Trace of Iron

MORE WELLS ARE TO BE SUNK

Schedule for Electrical Workers' Wages to be Considered at Another Meeting

Water at the well location on property of the Brainerd Brewing Co. has been examined and the test made proved the liquid to be excellent, showing very little hardness and not a trace of iron. This is a well being drilled by the water and light board in its search for a pure and ample water supply for the city of Brainerd. The analysis was made by the State Board of Health on samples submitted.

On motion of Commissioners Rowley and Weldemann three more wells are to be sunk near the brewery property.

All members of the board were present at the special meeting held on Tuesday evening. Reports of the water and light departments for the month of June were submitted, accepted and placed on file. The bill of the Cuyuna Range Power Co. for \$1,557.05 for June current was allowed.

The secretary was instructed to ask authority from the city council to lay 4 inch water mains at Twelfth and Maple streets.

The schedule for electrical workers was taken up and on motion of Commissioners Weldemann and Rowley the board is to convene at the call of the president for final action.

Several water consumers were reported to the board as sprinkling without permits. The secretary was ordered to shut off such premises without notice.

The secretary was also asked to gain the authority of the council for the purchase of a carload of pipe. The result of the test of Millers creek screens was pronounced satisfactory and the contract with John Larson for such coal was confirmed.

On motion of Commissioners Rowley and Weldemann two drums of chloride of lime were ordered purchased from the city of Minneapolis.

NATHAN A. LEASE FUNERAL

Held This Morning From Residence. Interment at Daggett Brook Cemetery

The funeral of Nathan A. Lease was held this morning at 8 o'clock at his residence, 329 South 2nd street, Rev. W. J. Lowrie officiating. Interment was at Daggett Brook cemetery. The services were held in the open air by the home and were attended by a number of friends and relatives. The members of the G. A. R. local corps were present.

Mr. Lease was born January 22, 1849, in Illinois. He came to Minnesota when quite young and lived with his parents in Washington county. From Faribault he enlisted in the army and served for a year and six months in the Civil War.

He was the father of fourteen children, nine of whom are now living. A number of them were able to be present at the funeral. He leaves a widow also.

The deceased was a familiar figure about the city, for a number of years he has handled a wood saw and thereby many became acquainted with him.

EVERYBODY SHOULD GO

Brainerd Merchants and Business Men Generally Should Attend the Community Picnic Tomorrow

There should be a general attendance of Brainerd business men at the community picnic tomorrow, and everybody should be in attendance at the dinner at 12 o'clock. The community spirit should be on every hand and the glad hand should be in evidence and thereby help cement a feeling that Brainerd extended the invitation in good faith and backs it up by being at the picnic in person in great big numbers. It is the one essential thing to do. Don't depend on your neighbor to go but go yourself, business men and everybody else.

Sessions will be Held at the Chamber of Commerce, Morgan Drum Corps to Be Here

Comrades of the Pap Thomas Post Grand Army of the Republic, have completed preparations for the encampment of the Park Region Encampment of the Grand Army of the Republic which will be held in Brainerd on Wednesday, Thursday and Friday, July 12, 13 and 14, sessions being at the Chamber of Commerce and out door entertainment being also provided.

As Brainerd is the center of Minnesota, its location assures the encampment of a larger attendance than at any other city. Brainerd 15 years ago had the honor of entertaining the veterans and they came from all parts of the state.

WEDNESDAY, July 12

11:30 a. m.—Post meets visiting comrades at the trains.

2 p. m.—Comrades meet trains.

3 p. m.—Registration and assignment to quarters.

7 p. m.—Automobile ride about the city.

8:30—At headquarters.

Address of welcome by Mayor R. A. Belse, with reply by Comrade J. A. Wilson. Music will be furnished by the Morgan Post Drum Corps.

THURSDAY JULY 13

10 a. m.—G. A. R. parade led by the Morgan Post Drum Corps.

12:30 p. m.—G. A. R. basket lunch at Lum Park.

2 p. m.—Address by Former Governor S. R. Van Sant of Minneapolis.

8:15 p. m.—General campfire at headquarters.

FRIDAY, JULY 14

9 a. m.—Business meeting at headquarters.

11:30 a. m.—Adjournment.

The 26th annual encampment of the G. A. R. Park Region district, opened this morning with the arrival of twenty-five veterans from points tributary to Brainerd. The noon train brought crowds from Atkin, Lequot and the range towns while quite a few drove in from different points in the county. The ladies of the Relief Corps are busily engaged arranging for the entertainment and comfort of the wives and daughters of veterans. It is estimated that one of the largest crowds ever attending an encampment in the district will be on hand by evening to enjoy the three day program arranged by the local committee.

This evening at 7 o'clock the convention and automobile committee of the Chamber of Commerce have arranged an auto ride for the delegates for one hour about the city after which the delegates and their friends will be escorted to the Best theatre where they will enjoy an army picture. Every owner of an automobile is requested to turn out at 7 o'clock and meet at the Ransford hotel ready to give the visitors a ride about the city. This invitation should be heeded. Let us show some of the hospitality Brainerd is famed for throughout the state.

Comrades J. M. Hunt, Albert Fox and J. A. Wilson together with T. E. Smith are in charge of arrangements while Mrs. Henry Theviot has appointed a committee on arrangements and reception to meet the incoming trains. The Morgan Drum Corps from Minneapolis is expected on the noon train and martial music will be spread to the four corners of the city. This organization is the best in the state today and seldom is an encampment held but that the corps is present to give the old comrades with the times they marched to in '61.

General headquarters are at the Chamber of Commerce rooms while the Woman's Relief Corps have headquarters in the Elks hall. Flags and bunting is being used by the merchants and business houses in a spirit of greeting while everyone is extending the hand of welcome.

GOOD WATER AT BREWERY

Water From Well No. 10 Shows Very Little Hardness and Not a Trace of Iron

MORE WELLS ARE TO BE SUNK

Schedule for Electrical Workers' Wages to be Considered at Another Meeting

Water at the well location on property of the Brainerd Brewing Co. has been examined and the test made proved the liquid to be excellent, showing very little hardness and not a trace of iron. This is a well being drilled by the water and light board in its search for a pure and ample water supply for the city of Brainerd. The analysis was made by the State Board of Health on samples submitted.

On motion of Commissioners Rowley and Weidemann three more wells are to be sunk near the brewery property.

All members of the board were present at the special meeting held on Tuesday evening. Reports of the water and light departments for the month of June were submitted, accepted and placed on file. The bill of the Cuyuna Range Power Co. for \$1,557.65 for June current was allowed.

The secretary was instructed to ask authority from the city council to lay 4 inch water mains at Twelfth and Maple streets.

The schedule for electrical workers was taken up on motion of Commissioners Weidemann and Rowley the board is to convene at the call of the president for final action.

Several water consumers were reported to the board as sprinkling without permits. The secretary was ordered to shut off such premises without notice.

The secretary was also asked to gain the authority of the council for the purchase of a carload of pipe. The result of the test of Millers creek screens was pronounced satisfactory and the contract with John Larson for such coal was confirmed.

On motion of Commissioners Rowley and Weidemann two drums of chloride of lime were ordered purchased from the city of Minneapolis.

NATHAN A. LEASE FUNERAL

Held This Morning From Residence, Interment at Daggett Brook Cemetery

The funeral of Nathan A. Lease was held this morning at 8 o'clock at his residence, 329 South 2nd street, Rev. W. J. Lowrie officiating. Interment was at Daggett Brook cemetery. The services were held in the open air by the home and were attended by a number of friends and relatives. The members of the G. A. R. local corps were present.

Mr. Lease was born January 22, 1849, in Illinois. He came to Minnesota when quite young and lived with his parents in Washington county. From Faribault he enlisted in the army and served for a year and six months in the Civil War.

He was the father of fourteen children, nine of whom are now living. A number of them were able to be present at the funeral. He leaves a widow also.

The deceased was a familiar figure about the city, for a number of years he has handled a wood saw and thereby many became acquainted with him.

EVERYBODY SHOULD GO

Brainerd Merchants and Business Men Generally Should Attend the Community Picnic Tomorrow

There should be a general attendance of Brainerd business men at the community picnic tomorrow, and everybody should be in attendance at the dinner at 12 o'clock. The community spirit should be on every hand and the glad hand should be in evidence and thereby help cement a feeling that Brainerd extended the invitation in good faith and backs it up by being at the picnic in person in great big numbers. It is the one essential thing to do. Don't depend on your neighbor to go but go yourself, business men and everybody else.

VILLA REBELS SUFFER DEFEAT

Garranza Troops Repulse Two Separate Bands.

GOVERNMENT FORCES ACTIVE

Indications Are Every Effort Will Be Made to Capture General Villa, Who Is Reported to Be Directing the Operations.

Chihuahua City, Mex., July 12.—Two Villa bands attacked Carranza garrisons at Rosario and Parral, but in both cases were beaten off with losses, according to official reports to General Trevino.

From Rosario the bandits were driven south toward the Durango line by government troops under Generals Jacinto and Hernandez.

Other reports to General Trevino indicated that a scouting patrol from Parral had encountered one of the small bands of outlaws who scattered after the attack on Jimenez in the vicinity of El Valle and had driven them into the hills, but no details were given.

General Trevino said he had not received details of either of the clashes, but that all reports indicate that both were skirmishes more or less minor in nature. Every effort to force the Villistas to face a pitched battle had failed.

No doubt remains in the minds of the military authorities here that Villa is directing the campaign along the Durango-Chihuahua border.

It was asserted that every effort of the de facto government would be launched in an attempt to effect his capture.

Government troops have practically completed an enveloping movement by means of which it is hoped to put an end to the bandit campaign.

The Villistas now are enclosed, General Trevino said, in a definite area, pivoting about Los Nieves and Torreon de Caran. Co-operation between the various commanders is complete and orders have been issued to begin closing in.

American Mine Raided.

Bonquilla, Tex., July 12.—Word was received here that the Lamula mine, an American-owned property about 100 miles south of here, has been raided by Mexican bandits. Fear was expressed that the raiders may continue their march toward the border.

KILLING FOLLOWS QUARREL

Young Wife Fires Five Shots Into Husband's Body.

Caldwell, N. J., July 12.—Mrs. Margaret Bentinger, beautiful young wife of Christopher Bentinger, wealthy New York coal dealer, shot and killed her husband when he broke into her bedroom after several hours of violent quarreling.

The first shot pierced Mr. Bentinger's brain. His wife fired four more shots into his prostrate form and, turning to John Cummings, a guest, who had rushed into the bedroom, remarked: "I have finished him this time; he won't bother me any more."

ZEPPELINS MAY CROSS THE OCEAN

Amsterdam, July 12.—Plans are under way, according to German sources, for the formation of a transatlantic Zeppelin freight and passenger service.

The first airship, a super-Zeppelin, is expected to make its appearance at an American port some time in the middle of August. Upon its trial trip will depend the formation of the service.

NATIONAL PARK IN THE EAST

First One on That Side of Mississippi Created.

Washington, July 12.—Creation of the first national park east of the Mississippi, comprising 5,000 acres, on Mount Desert island, Maine, was announced by the interior department. It will be known as Sieur de Monts National Monument.

The tract, noted for its rugged beauty, was donated to the government. Its northern boundary is only a mile from Bar Harbor and several popular summer resorts lie near it. There are ten mountain peaks and four lakes within the tract.

WILSON'S ELECTION SURE

Secretary of Labor Says Mexican Policy Has Won Friends.

Des Moines, July 12.—In an address before Democratic laboring men on the eve of the Democratic state convention, Secretary Wilson of the federal department of labor declared the Mexican policy alone has made enough friends for the president to assure his victory in November.

GENERAL BLISS.

Going to Mexican Border to Inspect the National Guard.

MILITIA ON BORDER WILL BE INSPECTED

Washington, July 12.—Brigadier General Tasker H. Bliss, assistant chief of staff of the United States army, left here for a thorough inspection tour of all the militia troops on the border.

He will go over the line from end to end with a view to making a comprehensive study of conditions affecting the national guardsmen.

By direction of the war department he will see that everything possible is being done, under the circumstances, for the health and comfort of the troops. Major Nolan of the general staff will accompany him.

General Bliss also will confer with General Funston over the general disposition of the American expeditionary force and other troops.

Secretary of War Baker had a long conference with General Bliss before the latter's departure.

Long List of Army Promotions.

Washington, July 12.—Nominations for the promotion of several hundred officers to carry out the army organization were sent to the senate by the White House. The list included twenty-seven lieutenant colonels, to be colonels; forty-one majors, to be lieutenant colonels; 100 captains, to be majors, and several hundred first lieutenants to be captains, and second lieutenants to be first lieutenants.

CITIES NEAR NEW YORK BAR ALL CHILDREN.

New York, July 12.—Communities immediately surrounding New York city show increasing fear that they will be infected with infantile paralysis from children fleeing the plague in the metropolis.

A number of cities and towns in New Jersey and New York have established quarantines and some are turning back all children from New York city.

MAY SPEND BIG SUM ON NIAGARA FALLS

Ottawa, Ont., July 12.—The development of 2,000,000 horsepower of electric energy below the Niagara Falls, without disturbing the Horseshoe and American falls, and the expenditure of \$100,000,000 in the work, are proposed in a scheme that has been submitted to the Dominion government for approval.

The promoters are an incorporated company, the Thompson Porter Cataract company, headed by T. Kennard Thompson and Peter A. Porter, two Americans. They propose to place a dam in the rapids below the falls to raise the water 100 feet. Half the power developed would go to New York state, and the other half to Ontario, and the company would agree to sell the Canadian half of the dam to Canada at the initial cost, plus a percentage, and to make an agreement as to the charge to be made for power. The government will appoint a commission of engineers to look into the scheme.

DAN PATCH, FAMOUS PACING HORSE, DEAD.

Minneapolis, July 12.—Dan Patch, 1:55, famous as a record breaking pacer, died at the International Stock farm at Savage. He was owned by M. W. Savage of Minneapolis and had been campaigned as a record breaker and on the racing circuits from coast to coast. He was foaled April 26, 1895, and was purchased by the Minneapolis man fourteen years ago for \$60,000.

Railroad Strike in Spain.

Madrid, July 12.—A general strike of railroad men is threatened, according to dispatches from the provinces. The movement seems to be gaining the adherents of other workers in Madrid, Barcelona, Oviedo, Valencia and Bilbao. At the latter city the strikers came in collision with the civil guard and ugly rioting followed.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, dependent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

VILLA REBELS SUFFER DEFEAT

Garranza Troops Repulse Two Separate Bands.

GOVERNMENT FORCES ACTIVE

Indications Are Every Effort Will Be Made to Capture General Villa, Who Is Reported to Be Directing the Operations.

Chihuahua City, Mex., July 12.—Two Villa bands attacked Carranza garrisons at Rosario and Parral, but in both cases were beaten off with losses, according to official reports to General Trevino.

From Rosario the bandits were driven south toward the Durango line by government troops under Generals Jacinto and Hernandez.

Other reports to General Trevino indicated that a scouting patrol from Parral had encountered one of the small bands of outlaws who scattered after the attack on Jimenez in the vicinity of El Valle and had driven them into the hills, but no details were given.

General Trevino said he had not received details of either of the clashes, but that all reports indicate that both were skirmishes more or less minor in nature. Every effort to force the Villistas to face a pitched battle had failed.

No doubt remains in the minds of the military authorities here that Villa is directing the campaign along the Durango-Chihuahua border.

It was asserted that every effort of the de facto government would be launched in an attempt to effect his capture.

Government troops have practically completed an enveloping movement by means of which it is hoped to put an end to the bandit campaign.

The Villistas now are enclosed, General Trevino said, in a definite area, pivoting about Los Nieves and Torreon de Canas. Co-operation between the various commanders is complete and orders have been issued to begin closing in.

American Mine Raided.

Bonquilla, Tex., July 12.—Word was received here that the Lamula mine, an American-owned property about 100 miles south of here, has been raided by Mexican bandits. Fear was expressed that the raiders may continue their march toward the border.

KILLING FOLLOWS QUARREL

Young Wife Fires Five Shots Into Husband's Body.

Caldwell, N. J., July 12.—Mrs. Margaret Beutinger, beautiful young wife of Christopher Beutinger, wealthy New York coal dealer, shot and killed her husband when he broke into her bedroom after several hours of violent quarreling.

The first shot pierced Mr. Beutinger's brain. His wife fired four more shots into his prostrate form and, turning to John Cummings, a guest, who had rushed into the bedroom, remarked: "I have finished him this time; he won't bother me any more."

ZEPPELINS MAY CROSS THE OCEAN

Amsterdam, July 12.—Plans are under way, according to German sources, for the formation of a transatlantic Zeppelin freight and passenger service.

The first airship, a super-Zeppelin, is expected to make its appearance at an American port some time in the middle of August. Upon its trial trip will depend the formation of the service.

NATIONAL PARK IN THE EAST

First One on That Side of Mississippi Created.

Washington, July 12.—Creation of the first national park east of the Mississippi, comprising 5,000 acres, on Mount Desert island, Maine, was announced by the interior department. It will be known as Sieur De Monts National Monument.

The tract, noted for its rugged beauty, was donated to the government. Its northern boundary is only a mile from Bar Harbor and several popular summer resorts lie near it. There are ten mountain peaks and four lakes within the tract.

WILSON'S ELECTION SURE

Secretary of Labor Says Mexican Policy Has Won Friends.

Des Moines, July 12.—In an address before Democratic laboring men on the eve of the Democratic state convention, Secretary Wilson of the federal department of labor declared the Mexican policy alone has made enough friends for the president to assure his victory in November.

GENERAL BLISS.

Going to Mexican Border to Inspect the National Guard.

MILITIA ON BORDER WILL BE INSPECTED

Washington, July 12.—Brigadier General Tasker H. Bliss, assistant chief of staff of the United States army, left here for a thorough inspection tour of all the militia troops on the border.

He will go over the line from end to end with a view to making a comprehensive study of conditions affecting the national guardsmen.

By direction of the war department he will see that everything possible is being done, under the circumstances, for the health and comfort of the troops. Major Nolan of the general staff will accompany him.

General Bliss also will confer with General Funston over the general disposition of the American expeditionary force and other troops.

Long List of Army Promotions.

Washington, July 12.—Nominations for the promotion of several hundred officers to carry out the army organization were sent to the senate by the White House. The list included twenty-seven lieutenant colonels, to be colonels; forty-one majors, to be lieutenant colonels; 100 captains, to be majors, and several hundred first lieutenants to be captains, and second lieutenants to be first lieutenants.

CITIES NEAR NEW YORK BAR ALL CHILDREN.

New York, July 12.—Communities immediately surrounding New York city show increasing fear that they will be infected with infantile paralysis from children fleeing the plague in the metropolis.

A number of cities and towns in New Jersey and New York have established quarantines and some are turning back all children from New York city.

MAY SPEND BIG SUM ON NIAGARA FALLS

Ottawa, Ont., July 12.—The development of 2,000,000 horsepower of electric energy below the Niagara Falls, without disturbing the Horseshoe and American falls, and the expenditure of \$100,000,000 in the work, are proposed in a scheme that has been submitted to the Dominion government for approval.

The promoters are an incorporated company, the Thompson Porter Cataract company, headed by T. Kennard Thompson and Peter A. Porter, two Americans. They propose to place a dam in the rapids below the falls to raise the water 100 feet. Half the power developed would go to New York state, and the other half to Ontario, and the company would agree to sell the Canadian half of the dam to Canada at the initial cost, plus a percentage, and to make an agreement as to the charge to be made for power. The government will appoint a commission of engineers to look into the scheme.

DAN PATCH, FAMOUS PACING HORSE, DEAD.

Minneapolis, July 12.—Dan Patch, 1:55, famous as a record breaking pacer, died at the International Stock farm at Savage. He was owned by M. W. Savage of Minneapolis and had been campaigned as a record breaker and on the racing circuits from coast to coast. He was foaled April 26, 1898, and was purchased by the Minneapolis man fourteen years ago for \$60,000.

Railroad Strike in Spain.

Madrid, July 12.—A general strike of railroad men is threatened, according to dispatches from the provinces. The movement seems to be gaining the adherents of other workers in Madrid, Barcelona, Oviedo, Valencia and Bilbao. At the latter city the strikers came in collision with the civil guard and ugly rioting followed.
